

### CATCH UP TV CLIENT LICENSE

Catch-Up TV records all the programs in the broadcast stream of television channels, allowing them to be watched in the same high quality.

- Guests can easily access the contents of any date and time interval with the remote control.
- All content can be accessed via the Electronic Program Guide (EPG).
- Full viewer control is provided with the ability to stop, start, fast forward and rewind the broadcast.
- Does not require extra setup as it is a software feature of Playroom TV.
- Since Catch-Up TV operates in the local network, there is no data traffic problem.
- Retrospective records can be accessed as much as the (storage) capacity of the hardware.
- Catch-up TV displays high definition (HD) broadcasts.
- Catch-up TV is only found on Playroom TV among other IPTV providers.
