PRMHW-310 2 x DVBS/S2/C/T/T2 Tuner Module with 2 x CI slots

PRODUCT DETAILS

PRMHW-310 multi standard dual tuner dual CI card is a twin tuner card for watching or recording two different channels from two different frequencies simultaneously. PRMHW-310 supports multiple digital TV standards, including DVB-S2/S, DVB-T2/T,DVB-C2/C, DVB-S2X and ISDB-T. It is built with 2 Common Interface which allows insertion of CAM and smartcard for pay TV. What's more, with this multi-standard TV tuner card, a switchover between different digital TV signals is much easier, you just need to plug another signal cable instead of taking out the card from your server.
